In late 2018, residents of Helsinki brainstormed and made suggestions for what would make Helsinki an even better city. Ideas were collected at local events and in the OmaStadi.hel.fi service. A total of **1,273** suggestions were submitted.

City experts assessed the feasibility of the suggestions.

The suggestions must fall under the purview of the City and be feasible. **839** suggestions advanced.

2

More detailed plans were drafted based on the suggestions together with residents, communities and City employees. Plans were drafted in the OmaStadi service and at workshops. One plan could be a combination of several suggestions.

City divisions created cost estimates for the plans considering all the costs arising from the execution of the plan. These costs included the expenses of the planning of all construction sites, for example. A total of **299** plans will advance to the vote.

3

All residents of Helsinki, who have turned 12 or will turn 12 during the election year, may vote. You can vote both for plans for a major district and plans for the entire city. Votes are cast on the omastadi.hel.fi website in October 2019. The suggestions with the most votes will be realised in or after 2020.
