3 Voting Autumn 2021

4 Implementation End of 2021

1. When the voting is underway, you can vote at omastadi.hel.fi. You can begin voting by pressing “Start voting”.

[Exit voting](#)

Voting

Strong identification

2.

To be able to vote in OmaStadi, you must first verify your identity. OmaStadi uses strong authentication, as only Helsinki residents aged 12 or over are entitled to vote. By verifying your identity, we make sure that you are entitled to vote. Pupils can verify their identity with their personal Wilma IDs.

Bank ID or mobile ID

Wilma ID for school students

What to do if you have problems with authentication?

If you have problems with authentication, please contact us by sending an email to omastadi@hel.fi. You can also vote at a polling station by showing your ID. You can find details of all the [polling stations and voting periods](#) in the instructions on the event page.

2. To vote, you need to confirm your identity. You can do that with online banking codes or a mobile ID. If you are a student in comprehensive school or upper secondary school and aged over 12 or turning 12 this year, you can sign in using your Wilma ID.

The following details are transmitted when you submit your identification:

Personal identity code:

Last name:

First names:

Municipality of residence:

Postal address:

[Continue to service](#)

[Cancel](#)

Your personal data needed for identification has been retrieved from the Population Information System. You can check your personal data on the Suomi.fi [Personal Data](#) page.

The service requires your personal data for identification. Details on the data processing are available after you have identified yourself in the service.

4. Confirm that the information displayed is correct. Then click “Continue to service”.

Terms and conditions

By signing in to the service, you agree that proposals and comments submitted by you may be published under your name, and texts written by you may be edited or deleted by moderators, if they are deemed to be abusive or inappropriate. Your personal data are not disclosed to external parties or used for other purposes than matters concerning the usage of the OmaStadi service.

Using another person's name without their permission is forbidden. Everyone is individually responsible for the consequences of using another person's name without permission. The online service is provided by the City of Helsinki. You can give feedback about the online service by following the Feedback link on every page.

Signing up

You will need to sign up for the service if you want to submit or comment on proposals, participate in discussions or report inappropriate texts. Signing up requires an email address, to which the password for signing in will be sent. The user can register to the Omastadi service in two alternative ways:

- The Tunnistamo service allows registration with accounts of external service providers (YLE, Google, Facebook), the AD-codes for city employees and edu.hel.fi codes used in the schools of Helsinki.
- The user can create an individual account in the OmaStadi service. The user then chooses a username and a password. The user must verify his or her e-mail address by following the link in the message sent by the service when registering.

The first log in through the Tunnistamo service is the same as as registration.

User's responsibility

All users have the full responsibility for their own writings and for the content of these.

As a user you agree and promise, regarding any content that you produce or submit, such as texts, pictures, videos, other attachments and materials (together called 'Material' here), to observe good manners and current legislation.

By loading or otherwise submitting Material to the service you agree that any Material subject to copyright is licensed with the **Creative Commons Attribution-NonCommercial-ShareAlike 4.0 International Public License** [u](#) (CC BY-NC-SA 4.0).

As a user you take full responsibility for and guarantee that you own the rights for submitting the Material to the service, and that the Material itself or its being submitted to the service does not violate others' immaterial or other rights.

Personal data file description

If you become a customer of the City's services or use the services in another manner, the City will collect your personal data only to the extent necessary for the purposes of providing these services. The data are collected in different registers according to the purpose of use of the data. The registers' personal data file descriptions can be found at www.hel.fi/rekisteriseloste. The page includes the personal data file description for [Participation and feedback on the Omastadi website](#). More information [about the relevant rights as stated in the EU General Data Protection Regulation](#) in the online services of the City of Helsinki.

Cookies

Cookies are files stored on the user's device by the browser. Cookies are used to enable features that make the use of the service easier and to collect data on users in order to improve the service. Cookies allow us to provide you with a more easy-to-use and functional website that meets your demands more efficiently.

Regarding the collection of user data, cookies include anonymous unique identifiers that allow us to collect data about users who visit our website, such as information on their browsers and devices. The administrators of the website do not have access to the users' unique identifier data. Cookies provide us with information about the browsers used on our sites and what pages are viewed the most.

This website also includes content provided by external online service providers. External online service providers can install their own cookies on browsers. For example, this website uses the Here Maps map service and its map data.

Content licensing

Any creative content subject to copyright, such as texts, pictures, fonts, sound recordings and videos, that is submitted to the service by the user is published on the terms of the [Creative Commons BY-NC-SA 4.0](https://creativecommons.org/licenses/by-nc-sa/4.0/deed.en) licence: <https://creativecommons.org/licenses/by-nc-sa/4.0/deed.en>.

All data in the service are published as open data, on the terms of the Open Data Commons Open Database Licence (ODbL).

The illustrations on the website have been produced by visual artist Minna Alanko.

5.

Agree to the terms and conditions of use

[Refuse the terms](#)

[I agree with these terms](#)

- Once you have confirmed your identity successfully, you need to accept the terms of service. Read carefully through the terms, and then accept them.

Select voting area

- In OmaStadi, you can vote for proposals that are common to one optional region, as well as the whole of Helsinki.
- The voting area is automatically determined by your postal code, but you can change the area if you wish.
- If you have selected favorites from different regions, you will see their number in the region list.

6. 

Everyone can vote for the proposals in this area

All of Helsinki

7. 

Select voting area

Your postal code belongs to area: Southern
You can change the voting area by selecting another area.

8. 

Which districts belong to this area?

☒ Southern

☐ Eastern

☐ Southeastern

☐ Central

☐ Northeastern

☐ Western

☐ Northern

9. 

Exit voting

Select proposals >

6. Everyone is allowed to vote on the proposals concerning the City of Helsinki as a whole.
7. Additionally, each voter can vote for the proposals for a single area. The system will suggest a voting area based on your place of residence, but you can also change your voting area by selecting it from the list.
8. Via the information button, you can open up a list showing which districts belong to each voting area.
9. Once you have selected a voting area, go to the next stage.

Select proposals

Get to know the proposals of Entire Helsinki and the chosen area. You can use the proposal filtering to help you. You can filter suggestions by region, theme, or keyword. You can also set a budget range for the proposals you see.

14.

- After the search, you can see the proposals that match the search criteria and basic information about them. You can also open the full information about a proposal into a separate window to learn more about it.
- If you want to select a specific proposal, you can add it to your voting cart. You can read about and vote for several proposals until you have used up the funds reserved for the area of your choice and the entire City.
- You can see the proposals you have selected into your cart at the bottom of the page. You can manually scroll down to the bottom, or you can click on the 'Show voting cart' button.

15. You can see all the proposals you have selected for your area and the entire Helsinki. You can also see the budget for both areas and how much of the budget you have left for your votes. If you want to select more proposals into your cart, you can return to the top of the page and keep searching and selecting until the budget is used up. You do not need to use up the budget in full.

16. →

Failed adding the proposal to the voting cart

❗ The remaining budget on this area is not sufficient for this proposal

The cost of this proposal exceeds the remaining budget for this area. First, remove other proposals in this area from your vote and add this proposal again to your vote.
